

Emis Access Online Service

You can go straight to EMISaccess here 

Or find out more below....

Using this online service it is possible to:

- Request repeat prescriptions
- Book appointments
- View certain parts of your medical records
- Amend your contact details (change address, telephone number etc).

There may be times when EMISaccess is not available; this tends to be during times of computer backup and other housekeeping, usually between 11pm – 4am.

In order to use the service you must first request registration security details, which you can then use to create your own secure account.

We will require a form of photo identification (passport, driving licence) before the receptionist can give you your security information.

Create an account using the security information and select a password only you know.

To sign in to this account you will need:

- * Our practice ID - *****
- * Your Access ID – on your registration letter
- * Your Password – chosen by you when you create the account

Is my information secure?

Yes, all information that is sent to your surgery via Patient Access is secure. Your personal details are encrypted and protected using the highest standard internet security, so it cannot be intercepted. Only you and your GP surgery are able to see this information.
